

Raydon School Management System

Complete User Manual for Admin, Teacher, Bursar, and Student Roles

Public website with Student Portal and Staff Portal access only.

Version: June 2026

1. Getting Started

The system has two active portal entry points: **Student Portal** for learners and **Staff Portal** for administrators, teachers, bursars, registrars, librarians, and management staff. The separate parent portal entry has been removed from the public portal area.

Staff users sign in at **/staff/login**. Students sign in at **/student-portal/login** using their admission number and date of birth. After login, each role sees only the modules allowed by its permissions.

- Use the sidebar to move between modules.
- Use the top search field on staff pages to find pupils quickly.
- Use PDF, Excel, print, and WhatsApp actions where they appear on reports and receipts.
- Always log out after using a shared computer.

2. Roles at a Glance

Admin / Super Admin	Staff Portal
Main Modules	Dashboard, Users, Students, Staff, Academics, Finance, Reports, Settings, Backups, Audit Trail
Daily Focus	Runs the whole system, manages users and settings, supervises academic, finance, attendance, reporting, and operational records.
Teacher	Staff Portal
Main Modules	Dashboard, Classes, Subjects, Timetables, Attendance, Results Centre, E-Learning, Library, Textbooks
Daily Focus	Works with assigned classes, captures attendance and marks, uploads learning material, marks submissions, and reviews timetable or library records.
Bursar / Accounts Clerk	Staff Portal
Main Modules	Students, Guardians, Fees Structure, Payments, Record Payment, Portal Payments, Statements, Reports, Expenses, Inventory, Bursar POS, Payroll
Daily Focus	Controls receipting, fee balances, payment approvals, statements, financial reports, expenses, inventory sales, and payroll-related finance work.
Student	Student Portal
Main Modules	Dashboard, My Profile, Fees Statement, Pay Fees, Results, Timetable, Textbooks, E-Learning
Daily Focus	Views personal records, fees, results, timetable, textbooks, notes, assignments, and submits online work.

3. Complete Module Directory

Module	Used By	What It Does
Public Website	All visitors	School information, admissions, news, gallery, contact details, and links to Student Portal and Staff Portal.
Dashboard	Admin, Teacher, Bursar	Role-aware overview of student totals, attendance, results, finance, payroll, library, audit, and pending work.
Users	Admin	Create and manage staff accounts, assign roles, reset passwords, and control active/inactive status.
Settings	Admin	Maintain school name, logo, term, year, contact details, WhatsApp settings, and operational preferences.
Backups	Admin	Create, list, and download database backups for recovery and archiving.
Audit Trail	Admin	Review login, create, update, delete, payment, and security activity.
Students	Admin, Bursar, Registrar	Register pupils, search records, edit details, print profiles, promote, transfer, deactivate, and review balances.
Guardians	Admin, Bursar, Registrar	Maintain parent or guardian contact records linked to pupils.
Staff / Teachers	Admin, Head	Maintain staff and teacher profiles, contacts, qualifications, and assigned subjects/classes.
Classes	Admin, Teacher, Head	Set up classes, streams, class teachers, and linked pupil groups.
Subjects	Admin, Teacher, Head	Maintain subjects, subject codes, grade range, and display order.
Timetables	Admin, Teacher, Head	Generate and inspect class timetables, teacher workloads, rooms, conflicts, and locked periods.
Student Attendance	Admin, Teacher, Head	Capture class attendance, edit records, and review monthly attendance.
Teacher Attendance	Admin, Head	Record teacher attendance and review staff presence.
Results Centre	Admin, Teacher, Head	Set exams, enter marks, review result sheets, publish reports, generate PDFs, export schedules, and verify slips.
E-Learning	Admin, Teacher, Student	Upload notes and assignments, collect student submissions, mark work, and provide feedback.
Announcements	Admin	Publish communication and notices shown to users and the public website.
Textbooks	Admin, Teacher, Librarian, Student	Issue, return, and track textbooks; student results can be restricted for overdue books.
Library	Admin, Teacher, Librarian	Manage library books, issues, returns, and current loans.
Fees Structure	Admin, Bursar	Create fee items and generate term bills.
Payments	Admin, Bursar	Search receipts, view payment history, print receipts, and audit edits or deletes.
Record Payment	Bursar	Capture payments by cash, bank transfer, EcoCash, POS, or other methods; arrears are cleared first.
Portal Payments	Admin, Bursar	Approve or reject payment references submitted by students from the portal.
Statements	Admin, Bursar, Accountant, Registrar	Generate student fee statements with PDF and Excel exports.
Reports	Admin, Head, Bursar, Accountant, Registrar	Run operational, finance, attendance, reconciliation, and summary reports.

Module	Used By	What It Does
Expenses	Admin, Head, Bursar, Accountant	Record and report school expenses.
Bank Reconciliation	Admin, Head, Bursar, Accountant	Import bank statement CSV files and compare them with payment records.
Master Receipts	Admin, Head	Group receipts for daily or batch banking and print master receipt PDFs.
Inventory	Admin, Head, Bursar, Librarian	Manage uniform and stock items, stock additions, reorder levels, and inventory details.
Bursar POS	Bursar	Sell uniform or inventory items through point-of-sale and print receipts.
Payroll	Admin, Head, Bursar, Accountant	Manage payroll profiles, periods, runs, approvals, payslips, bank Excel exports, and payroll reports.
Notifications	Admin	Manage notices and communication records.
Website	Admin and Staff	Return to the public school website from the operations area.

4. Admin User Guide

Admins and Super Admins supervise the full system. Use the dashboard first to identify urgent items: unpaid fees, pending results, attendance totals, low stock, pending portal payments, recent audit events, and backup status.

The screenshot displays the 'Student Records' module in the Raydon High School Management System. The interface includes a sidebar with navigation options: Dashboard, Students, Register Student, Parents, Staff, Classes, Subjects, Timetables, Attendance, Results Centre, E-Learning, and Announcements. The main content area shows 'School operations' for 'RAYDON HIGH SCHOOL' in 'Term: Term 2 | Year: 2026'. A search bar is available for pupils, admission numbers, and guardians. The 'Student Records' section features a summary of 203 records and an 'All' filter. Below this, there are filters for Search, Class (All), Stream (All), Status (All), and Rows (25). A table lists student records with columns for Admission No, First Name, Surname, Class, Parent/Guardian, Status, and Actions (View, Edit).

Admission No	First Name	Surname	Class	Parent/Guardian	Status	Actions
A26028	Ashley	Banda	6C	Mildred Moyo	Active	View Edit
A26029	Blessing	Banda	7A	Prisca Mashingaidze	Active	View Edit
A26031	Brian	Banda	2C	Evans Jena	Active	View Edit
A26163	Farai	Banda	7A	Ruth Madhanzi	Active	View Edit

Students module: search, register, open profiles, edit, print, review payments, promote, transfer, or deactivate.

Admin Workflows

- User setup: open Users, create a staff account, choose a role, set status to Active, and give the user a strong password.
- Student registration: open Register Student, complete identity, class, guardian, and contact fields, then save and print the profile if needed.
- Academic setup: create classes and subjects before building timetables, e-learning tasks, attendance registers, or exam results.
- Result publishing: review result sheets, verify marks, then publish so eligible students can view them in the portal.
- System control: keep Settings, Backups, and Audit Trail current. Download backups before major changes.

5. Teacher User Guide

Teachers work from the Staff Portal. Depending on permissions and assigned classes, they use classes, subjects, timetables, attendance, results, e-learning, textbooks, and library tools.

- Open Timetables to see class periods, rooms, subjects, and assigned teacher workload.
- Use Attendance or class attendance register to mark present, absent, late, or excused learners.
- Use Results Centre for marks entry, result detail review, and result slip workflows when allowed.
- Use E-Learning to upload assignments or notes, download submissions, mark student work, and provide feedback.
- Use Textbooks and Library to track issued learning resources and returns.

Results Centre: exam results, mark entry, publishing, PDF export, and verification workflows.

6. Bursar User Guide

The bursar manages the finance lifecycle: fee setup, billing, receipts, statements, portal payment approvals, expenses, inventory sales, and finance-related reports.

- Fees Structure: create fee lines by term, year, class, and amount, then generate term bills.
- Record Payment: search the learner, confirm balance, capture payment method, reference number, term, year, and amount.
- Payments: search receipts, open receipt detail, print PDF, and review payment history.
- Portal Payments: review student-submitted references, verify them against bank records, then approve or reject.
- Statements: generate official account statements and export to PDF or Excel.
- Expenses, Bank Reconciliation, Master Receipts, Inventory, Bursar POS, and Payroll support the wider finance workflow.

Payments module: receipts, search filters, and finance actions.

7. Student User Guide

Students use the Student Portal only. The sidebar now contains Dashboard, My Profile, Fees Statement, Pay Fees, Results, Timetable, Textbooks, and E-Learning. The duplicate receipt link has been removed because receipts and payments are shown through the Fees Statement/payment area.

- Login: enter the admission number and date of birth exactly as recorded by the school.
- Dashboard: review balance, latest payments, published results, and shortcuts.
- My Profile: view admission number, class, contact, guardian, and identity details.
- Fees Statement: review opening balance, charges, payments, adjustments, receipts, and export PDF or Excel.
- Pay Fees: submit bank or transfer payment references for bursar approval.
- Results: view published results; access can be restricted by unpaid balances or overdue textbooks.
- Timetable: view daily class periods, subjects, teachers, rooms, and times.
- Textbooks: review issued textbooks, due dates, status, and cleared returns.
- E-Learning: download notes, open assignments, upload files or text answers, and check marks or feedback.

The screenshot shows the Raydon High School Student Portal interface. On the left is a dark blue sidebar with the school logo and a list of menu items: Dashboard, My Profile, Fees Statement, Pay Fees, Results, Timetable, Textbooks, E-Learning, and Logout. The main content area has a light blue header with 'School operations', 'RAYDON HIGH SCHOOL', 'Term: Term 2 | Year: 2026', and 'Student Portal' with a 'Logout' button. A green success message states 'Student portal login successful.' Below this is the 'Student Portal' title and the user ID 'RAIDON MAGUNJE | A26001'. The dashboard features eight data cards in a 2x4 grid: Profile (Grade 1), Current Balance (USD 50.00), Published Results (2), Overdue Textbooks (0), Attendance (Open), Timetable (Open), E-Learning (Open), and Submit Payment (Bank Ref). At the bottom is a 'Recent Payments' table with four rows of payment data.

Recent Payments		
RCT202600031	2026-06-15	USD 150.0
RCT202600013	2026-06-14	USD 10.0
RCT202600022	2026-06-14	USD 100.0
RCT202600021	2026-06-14	USD 100.0

Student Fees Statement: one finance area for balances, payments, receipts, and exports.

8. Daily Operating Checklist

- Admin: check dashboard, audit trail, backups, pending results, low stock, and user access changes.
- Teacher: mark attendance, update e-learning, enter marks, and check timetable changes.
- Bursar: receipt payments, approve portal payment references, print receipts, review statements, and reconcile bank deposits.
- Student: check dashboard, timetable, assignments, fees statement, textbooks, and published results.

9. Troubleshooting

- Login fails: check username/password for staff, or admission number/date of birth for students.
- Student profile was previously missing: use /student-portal/profile; it now opens the My Profile screen.
- Results hidden for a student: check fee balance and overdue textbook status.
- Payment reference rejected: confirm bank reference, amount, date, and whether it was already receipted.
- Missing menu item: confirm the user role and permissions assigned by Admin.
- PDF or Excel export missing data: confirm filters, term/year, and selected pupil before exporting.
- Unexpected data changes: open Audit Trail to see who performed the action and when.

10. Security Notes

- Use individual staff accounts, not shared accounts.
- Use strong passwords with at least eight characters including letters and numbers.
- Restrict Super Admin access to trusted system owners.
- Back up the database before deployments, large imports, or major term changes.
- Do not approve portal payment requests until the money has been verified.
